🔄 Github

Junior Front-End Developer with 2 years of experience crafting user-friendly interfaces. Proficient in modern web development tools, I bring a creative touch to projects. Well-versed in backend essentials for seamless collaboration, I'm eager to contribute my passion for innovative web solutions to collaborative team environments

EDUCATION

BSc in Computer Science & Engineering
Daffodil International University

Jan 2019 – Feb 2023
Dhaka, Bangladesh

PROJECTS

BookTown [🔗](#)

- User-friendly interface for purchasing books.
- Personalized dashboards for users, including cart and payment history.
- Admin dashboard for user and book management.
- Admin capabilities: add/remove users, manage books, update book details, update user status, and user deletion.

Ecom BD [🔗](#)

- Allows users to browse and purchase a variety of products online.
- Provides users to view and manage their orders, track shipments, and access their shopping cart.
- Restricted access area for administrators to efficiently manage users, products, and payments.
- Enables the admin to update product listings, and monitor and process payments for orders.

HeavyWheel [🔗](#)

- User-friendly platform facilitating the buying and selling of old bicycles.
- Sellers can list their bicycles for sale, while buyers can easily browse and purchase.
- Admin manages both sellers and buyers.
